Part #BMTPRJK Ver. #2

**\*READ INSTALLATION INSTRUCTIONS ENTIRELY PRIOR TO INSTALLING PRODUCT\***

**FOLLOW STEPS BELOW:**

**1) Install SOUND BAR CUFF over the SOUND BAR:**

- Center the Sound Bar Cuff over the sound bar.
- Attach the Sound Bar Cuff to the sound bar by 'hooking' the top lip of the Sound Bar Cuff to the top of the sound bar.
- Pull the Sound Bar Cuff downward until it rests firmly against the sound bar.  
*(The Sound Bar Cuff is contoured to match the shape of the factory installed sound bar).*

**2) Install FOOTMAN LOOP BRACKET:**

- Place black rubber protective tubing over the Jeep's Footman Loop.
- Attach the Footman Loop Bracket over the Footman Loop.

**3) Install the FRAME:**

- Using two (2) 1/2" bolts with lock washers, secure frame to the Sound Bar Cuff.
- Using one (1) 3/4" bolt with lock washer, secure the opposite end of the frame to the Footman Loop Bracket.

**4) Install BARREL & STOCK HANGER:**

- Barrel Hanger installs in the rear frame slot, closest to the roll bar, using two (2) 3/4" bolts with lock washers.
- Stock Hanger installs in the middle frame slot using two (2) 3/4" bolts with lock washers.

*\*Both hangers are adjustable, front to rear, in order to fit a wide range of firearms.*

**\*NEVER CARRY A LOADED FIREARM IN THE BLACK MOUNTAIN GUN & BOW RACK\***

The Black Mountain Gun & Bow Rack has a YEAR WARRANTY on all parts and components (scratches and rust NOT covered). Please note original shipping costs are non-refundable, return shipping costs are the responsibility of customer, and a 15% re-stocking fee will be charged/deducted from refund amount. Must contact Black Mountain Conversions before returning items to receive a Return Authorization Number (RAN). If your BM Gun & Bow Rack was purchased from a dealer (not directly from Black Mountain) contact the dealer for questions regarding exchanges or returns.
